2024 Executive Director of the Shallow Utilities Consortium

It is with mixed emotions that I have decided not to extend my tenure with the Shallow Utilities Consortium. I am grateful for my time with the Consortium and our industry partners. Together we have delivered safe and reliable services to thousands of homes for Calgarians and conquered many challenges including pandemic induced material and resource constraints and an unprecedented demand for housing. Collaboratively, we have leveraged experience and opportunities to find efficiencies in the work we do for this community. Thank you for your support and dedication to the delivery of services and development of multiple initiatives over the past five years.

On behalf of the Shallow Utilities Consortium, I am pleased to share that our members have selected an individual familiar to many of you for the position of Executive Director. Joe Beetge has made the decision to leave ENMAX Power and join the Shallow Utilities Consortium beginning January 2024. Joe has extensive experience working within this space and I am confident he will serve the Consortium and development community well. Joe is familiar with the current initiatives, challenges, and opportunities facing the industry and is well positioned to continue the collaboration and implementation of the upcoming process changes.

Please contact Joe Beetge at 4pconsortium@enmax.com; (403)-561-6515 moving forward with any questions, issues, or concerns relating to shallow utility design and construction for Underground Residential Development (URD).

Thank you again for the valued opportunity to work with you and I look forward to crossing paths again in the future.

Mark Kefford

Executive Director

Shallow Utilities Consortium
